G20E-3, G25E-3, G30E-3
GC20E-3, GC25E-3, GC30E-3

PT05-950908

SUBJECT: A213977 LPG FILTER

A new LPG filter assembly **A213977** is used on the above lift trucks. The illustration below is of the former **D700179** LPG filter assembly and the new **A213977** LPG filter assembly. The new filter assembly and its repair kit are listed in the first chart.

The new LPG filter assembly A213977 has the same mechanical interface and performance with the D700179. But their components are not interchangeable. The components in the A213977 filter assembly must be used together, therefore the two LPG filter assemblies are not interchangeable.

The "5.06 MTG GP-LP TANK" and "5.07 FILTER AS-LIQUID PROPANE" in the parts book **A251511E** for **GC15/18** and **GC20C** will be changed to add the new A213977 LPG filter assembly.

The "5.07 MTG GP-LP TANK" in the parts books **SB1008E** and **SB1009E** for **G/GC20/25/30E-3** will be changed to add the new **A213977** LPG filter assembly.

The effective serial numbers for the new LPG filter assembly are listed in the second chart

Part #	Qty.	Part Name
A213977	1	Filter Assy.
A213978	1	Repair Kit Assy.
Repair kit includes filter element and o-ring		

Model	Effective Serial Number
GC15C, GC18C , GC20C	BR-0193~UP BS-0142~UP BT-0129~UP
G20/25/30E-3	CX-0162~UP
GC20/25/30E-3	CV-0278~UP
